

May 13, 2021

At Community Bank, we continue to monitor the situation related to COVID-19 and what we can do to help minimize the spread to our employees, customers and our communities. Our lobbies are open and we welcome you back to in person banking. We are following current CDC guidelines and are no longer requiring masks when you visit our lobby. We are, however, respectful of those who still wish to wear a mask and will gladly wear one when visiting with you in an office or conference room upon request.

As always, you can continue to bank with us through our drive-thrus, night deposit, email, phone, mobile and online channels or ATM.

Together, Let's Make It Happen!
